***Examiner's Reasons for Allowance***

Claims 2-3, 9-11, 18-20, 26-28, 32 and 36 are allowed over the prior art of record.

The following is an examiner's statement of reasons for allowance:

As to claim 2, the prior art of record, taken alone or in combination, fails to disclose or render obvious wherein the light sensing mechanism includes a strip-like fluorescence surface which extends in one arbitrary direction, in combination with the rest of the limitations of the claim. Claim 3 is allowable by virtue of its dependency.

As to claim 9, the prior art of record, taken alone or in combination, fails to disclose or render obvious wherein the light sensing mechanism includes a strip-like fluorescence surface which extends in one arbitrary direction, in combination with the rest of the limitations of the claim. Claims 10 and 11 are allowable by virtue of their dependency.

As to claim 18, the prior art of record, taken alone or in combination, fails to disclose or render obvious wherein the reflected light measurement mechanism includes a streak camera, in combination with the rest of the limitations of the claim.

As to claim 19, the prior art of record, taken alone or in combination, fails to disclose or render obvious wherein the reflected light measurement mechanism includes a streak camera, in combination with the rest of the limitations of the claim.

As to claims 20, and 26-28, the prior art of record, taken alone or in combination, fails to disclose or render obvious wherein the reflected light measurement mechanism includes a streak camera, in combination with the rest of the limitations of the claim.

As to claims 32 and 36, the prior art of record, taken alone or in combination, fails to disclose or render obvious wherein the light sensing surface includes a fluorescence surface having a strip-like plane shape, in combination with the rest of the limitations of the claim.

**Additional Prior Art**

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The references listed in the attached form PTO-892 teach of other prior art apparatus/method for determining characteristics of a thin film.
